- Years before death	0-3	3-4	4-5	5-6	6-7
- Inheritance Tax payable	100%	80%	60%	40%	20%

CAR BENEFIT FOR EMPLOYEES

The charge for company car benefits is based on the carbon dioxide (CO_2) emissions. There is no reduction for high business mileage users.

For 2015/2016:

- The percentage charge is 5% of the car's list price for CO_2 emissions of 50g/km or less.
- For cars with CO₂ emissions of 51g/km to 75g/km the percentage is 9%.
- For cars with CO₂ emissions of 76g/km to 94g/km the percentage is 13%.
- Cars with CO₂ emissions of 95g/km have a percentage charge of 14% and thereafter the charge increases by 1% for every complete 5g/km to a maximum of 37% (emissions of 210g/km and above).

There is an additional 3% supplement for diesel cars not meeting Euro IV emission standards. However, the maximum charge remains 37% of the car's list price.

- **Car fuel** The benefit is calculated as the CO_2 emissions % relevant to the car and that % applied to a set figure (£22,100 for 2015/2016) e.g. car emission 100g/km = 15% on car benefit scale. 15% of £22,100 = £3,315.
- 1. Accessories are, in most cases, included in the list price on which the benefit is calculated.
- 2. List price is reduced for capital contributions made by the employee up to £5,000.
- 3. Car benefit is reduced by the amount of employee's contributions towards running costs.
- 4. Fuel scale is reduced only if the employee makes good all the fuel used for private journeys.
- 5. All car and fuel benefits are subject to employers National Insurance contribution's (Class 1A) of 13.8%.
