Being on the council is an opportunity to help the careers of others - both those new to the industry and those who are well established. Why not use your experience to guide and help shape this offering, and your local profession, or help guide and encourage those starting out.

The closer you are to the Local Institute the more influential you'll be. You can use your position to help shape the events and activities your Local Institute offers its members. You'll also be contributing to the industry locally, and helping to influence national policy and discussion. The more involved you become, the more it

“It’s been an eye-opening experience – I’ve built new relationships and worked alongside others I’d never otherwise have met.”
