
Biographical Notes

Jonathan Clark MA, MSc, DipEng, ACII, FCILA **Chartered Insurance Practitioner**

CII Deputy President Nominate

Jonathan has been a claims professional throughout his insurance career and sees delivery of the claims service as a critical component of the insurance promise. He is a Chartered Insurance Practitioner and Chartered Loss Adjuster with over 35 years' claims handling experience. He has dealt with claims in more than 50 countries and has worked with many of the world's largest corporations on their claims programmes. He joined SCOR in 2013 as Head of Claims in London and is now Global Head of Claims for Business Solutions.

Prior to joining SCOR Jonathan has been a member of the executive teams of Global Adjusting firms Crawford and Cunningham. He trained with Thomas Howell Selfe in their Watford office working in a local insurance market before moving to Ellis and Buckle to develop a team handling specialist claims. Between 2007 and 2009 he was Claims Director at the Financial Services Compensation Scheme.

His professional work has focussed on Business Interruption and Financial Loss exposures in particular and he has led teams providing claims responses to a number of major multi-claimant incidents. Jonathan believes deeply in developing talent in claims and in the market generally. He has lectured regularly on technical and claims management issues throughout his career and these include presentations as part of the SCOR Campus programme. Jonathan is Past President of the London Business Interruption Association and current President of the Chartered Institute of Loss Adjusters and a past examiner for them. Within the CII he has been Treasurer between 2002 and 2007 as well as Chair of the Faculty of Claims. He is immediate past Treasurer of the Insurance Institute of London and an advocate mentor for the IIL.

He holds degrees in Biochemistry and Biochemical Engineering from Oxford and London Universities.

Hobbies include music and sailing where he has been an active participant for many years.
