Qualification overview

The **CII Level 2 Award for the Foundation Insurance Test** is an introductory-level qualification that helps you develop an initial understanding of key insurance topics.

Who is this qualification for?

This qualification is particularly appropriate for:

- Anyone wishing to gain a basic understanding of the general insurance market, principles, procedures and products.
- Employees who hold no insurance qualifications but wish to demonstrate insurance knowledge and understanding.
- Employees beginning study for general insurance qualifications.
- Anyone wishing to build upon their specific job knowledge with sound understanding of general insurance principles and market requirements.
- Insurance staff employed in support functions such as human resources, marketing, IT and finance, wishing to develop an understanding of the industry in which they work.
- Staff working for an organisation whose primary business is not insurance, but which offers insurance advice and products as part of its overall service to customers.

Benefits for individuals and employers

By completing this qualification, you will be able to understand how the insurance sector works at an initial level. If you work within the sector or in a related sector, this will assist you in understanding your role and your workplace and prepare you to progress to more detailed study of insurance concepts, market, processes and products.

FIT has also been designed to assist you and your employer to comply with regulatory training and competence requirements. The Financial Conduct Authority (FCA) requires employees to demonstrate that they are competent in the work they do, and thereafter to maintain this competence. FIT can play an important part in helping to meet the requirements by serving as an objective measurement of your technical awareness and understanding.

Summary of content

The qualification consists of one unit that develops an understanding of key insurance topics, including:

- how the insurance market operates;
- fundamental risk and insurance principles and procedures; and
- core personal and commercial insurance products.
