

Award in Financial Planning (Hong Kong)

Objective

To provide knowledge and understanding of the financial planning process within a professional business environment and the core financial and life assurance products suitable to a client's needs.

Summary of learning outcomes	Number of questions in the examination*
1. The client's needs.	12
2. The fact-finding process.	14
3. Good practice.	14
4. Protection products.	11
5. Savings and investment products.	14
6. Retirement products.	10

* The test specification has an in-built element of flexibility. It is designed to be used as a guide for study and is not a statement of actual number of questions that will appear in every exam. However, the number of questions testing each learning outcome will generally be within the range plus or minus 2 of the number indicated.
