Useful tips as you prepare for the AF5 exam

1. **Schedule sufficient revision time** to use your notes and learning and support materials to refresh your learning and consider how what you have learned applies to the case studies.
2. **Familiarise** yourself with the format and the navigation options navigation of an onscreen written exam:

Familiarisation Test

The familiarisation test:

- Allows you to experience using the assessment platform before your exam.
- Is for the purpose of familiarisation with the assessment platform only.
- Is designed to allow you to go through the end-to-end process from logging in to answering test questions, before the day of your exam.

Please note, although the familiarisation test is modelled on AF1, the example is relevant for every candidate preparing to sit on-screen written exams by remote invigilation. Whilst there might be slight differences in layout, it will make you familiar with the platform.

Follow these instructions to take the Familiarisation Test.

- Click [here](#) to access the Familiarisation Test.
- Once the test is open, click 'start'.
- Explore the platform to practice navigation and general functionality.

We strongly advise that you try the familiarisation test once you have received your login details and **well in advance of the actual exam day to help pre-empt any potential exam day technical issues.**

If completing your exam via remote invigilation, you are strongly advised **NOT** to use a laptop provided by your employer.

- Laptops and IT equipment provided by your employer typically include security protocols that conflict with any remote invigilation software.
- You should also **AVOID** using a corporate Wi-Fi or any other internet connection that may include firewalls that you cannot personally control.

3. Visit the [Assessment Information - Before the exam](#) area of the CII website, which has important further practical information and support.
4. **Prepare exam technique** using the support of the Exam Guides on the AF5 unit page <https://shop.ciiigroup.org/financial-planning-process-af5-af5.html> which include examiner guidance and time-saving tips such as abbreviations.
