This is the framework for our insurance qualification units.

They are grouped according to their difficulty, from level 2 through to level 7.

Depending on the qualification you want to achieve, you'll need to study a number of these units. Some of our qualifications require just one unit while others require several.

### Study and assessment key

Assessment methods vary depending on the unit's level and subject matter. Each unit within the framework has been assigned an icon, to identify the assessment method from the options below.

#### Multiple choice question (MCQ) exam

Study is based on a specified enrolment period, from 01 January–31 December for UK exams, and 01 May–30 April for non-UK exams. MCQ exams are available weekly at UK and selected international online exam centres, or twice-yearly in April and October at international paper-based exam centres. Head to your unit webpage to see if remote invigilation is available for your exam.

#### Written exam

Study is based on a 12 month enrolment period from the date of purchase. Written exams are held twice-yearly in April and October at UK and international exam centres.

#### Mixed assessment

Study is based on an 18 month enrolment period from the date of purchase. Candidates must pass a coursework assignment within the first 6 months and a MCQ exam within 18 months.

#### Coursework assignments

Study is based on a 12 month enrolment period from the date of purchase. Candidates must pass three written assignments, each typically 2,000-3,000 words.

#### Dissertation

Study is based on an 18 month enrolment period from the date of purchase. Candidates must submit a dissertation, typically 10,000-11,000 words, on an agreed subject.
