Chartered Insurance Institute

J05

Diploma in Financial Planning

Unit J05 – Pension income options

October 2018 examination

SPECIAL NOTICES

All questions in this paper are based on English law and practice applicable in the tax year 2018/2019, unless stated otherwise in the question, and should be answered accordingly.

It should be assumed that all individuals are domiciled and resident in the UK unless otherwise stated.

Instructions

- Two hours are allowed for this paper.
- **Do not begin writing until the invigilator instructs you to.**
- **Read the instructions on page 3 carefully before answering any questions.**
- Provide the information requested on the answer book and form B.
- You are allowed to write on the inside pages of this question paper, but you must **NOT** write your name, candidate number, PIN or any other identification anywhere on this question paper.
- The answer book and this question paper must **both be handed in personally by you** to the invigilator before you leave the examination room. **Failure to comply with this regulation will result in your paper not being marked and you may be prevented from entering this examination in the future.**

Unit J05 – Pension income options

Instructions to candidates

Read the instructions below before answering any questions

- **Two hours** are allowed for this paper which consists of 15 short answer questions and carries a total of 130 marks.
- You are strongly advised to attempt **all** questions to gain maximum possible marks. The number of marks allocated to each question part is given next to the question and you should spend your time in accordance with that allocation.
- Read carefully all questions and information provided before starting to answer. Your answer will be marked strictly in accordance with the question set.
- You may find it helpful in some places to make rough notes in the answer booklet. If you do this, you should cross through these notes before you hand in the booklet.
- It is important to show all steps in a calculation, even if you have used a calculator.
- If you bring a calculator into the examination room, it must be a silent, battery or solar-powered, non-programmable calculator. The use of electronic equipment capable of being programmed to hold alphabetic or numerical data and/or formulae is prohibited. You may use a financial or scientific calculator, provided it meets these requirements.
- Tax tables are provided at the back of this question paper.
- Answer each question on a new page and leave six lines blank after each question part.

Subject to providing sufficient detail you are advised to be as brief and concise as possible, using note format and short sentences on separate lines wherever possible.

Attempt ALL questions

Time: 2 hours

*To gain maximum marks for calculations you **must** show **all** your workings and express your answers to **two** decimal places.*

1. In May 2008, Sheila's personal pension plan (PPP) was valued at £700,000. At that time, she took a pension commencement lump sum (PCLS) of £175,000. The remaining fund, currently valued at £950,000, is in a capped drawdown arrangement.

Sheila is about to reach age 75. Her only other pension arrangement is an uncrystallised PPP valued at £450,000. She has not registered for any form of transitional protection.

Calculate, **showing all your workings**, the lifetime allowance tax charge payable in respect of Sheila's pension benefits when she reaches age 75.
You should assume Sheila does not crystallise any further benefits prior to age 75. **(8)**

2. Joan, aged 72, is in receipt of an annuity income of £10,300 per annum. She also has a self-invested personal pension (SIPP) which currently holds £130,000 in a deposit account and £75,000 in an open-ended investment company.

Outline the protection available in respect of Joan's annuity and SIPP should any of the providers default. **(5)**

3. Navdeep, aged 61, works part-time. In 2014 he crystallised part of his personal pension plan into a capped drawdown plan. Navdeep is currently drawing £12,000 per annum to supplement his earned income. His employer is continuing to make pension contributions on his behalf.

Outline the additional information you will require when advising Navdeep on whether or not he should switch his capped drawdown plan to a flexi-access drawdown plan. **(8)**

4. Valerie was a member of her previous employer's defined benefit pension scheme between 1985 and 2002. The scheme was contracted-out prior to April 2016.

Outline the statutory minimum increases that the scheme will apply to her pension once it is in payment. **(6)**

5. Sanjeev, aged 59, is employed. He would like to lend his daughter £50,000 for her to use as a house deposit. Sanjeev is considering taking an uncrystallised funds pension lump sum from a personal pension plan (PPP) to make this loan. This PPP is currently valued at £80,000 and he has no other funds available to make the loan.

Outline the factors that you would consider when advising Sanjeev on whether he should take this course of action. **(10)**

6. Jolene, aged 58, is married to Kenny aged 56. Jolene, who is in poor health with a reduced life expectancy, has decided to retire early. She has a personal pension plan valued at £375,000.

Outline **five** benefits and **five** drawbacks for Jolene taking her pension income using phased flexi-access drawdown rather than by purchasing a lifetime annuity. **(10)**

7. June, who is single and in good health, intends to retire and take the benefits from her employer's defined benefit pension scheme when she reaches the age of 65 in November 2018. She joined the scheme in 1998 and it is her only private pension arrangement.

June is entitled to an initial scheme pension of £8,500 per annum and the whole pension will increase annually in payment in line with Retail Prices Index capped at 5%. Alternatively, she can commute £2,857 of this income for a pension commencement lump sum (PCLS) of £34,285. The scheme commutation rate is 12:1.

June's State Pension of £132 per week will start on 6 November 2018. Her only savings are £41,000 in a cash ISA and she has a low attitude to risk. June needs a net, inflation proofed income in retirement of at least £14,000 per annum.

Explain the factors you would take into account when advising June on whether or not she should take the PCLS offered by the scheme. **(10)**

8. Explain what is meant by 'safe withdrawal rate' in relation to pension drawdown. **(6)**

QUESTIONS CONTINUE OVER THE PAGE

9. Frank, is due to retire and take the benefits from his employer's defined benefit pension scheme when he reaches the age of 65 in two months' time. He has been divorced since 2009. As part of the divorce settlement a pension debit of 35% was applied to Frank's pension benefits and this was arranged as an internal pension share.

Explain briefly how the scheme will calculate the amount that needs to be deducted from Frank's pension benefits in respect of the pension debit when he retires.
No calculations are required. **(5)**

10. Meg and Henry have recently married. Meg has a non-dependant adult daughter from a previous relationship. On her death Meg would like to ensure that her pension fund is available to provide for Henry as he has little pension provision of his own. However, she would also like to ensure that, on Henry's death, the residual fund will pass to her daughter.

Explain why nominating the death benefits to a spousal bypass trust would be suitable in these circumstances. **(8)**

11. Carol's husband died in September 2018 following a sudden illness. Carol, who has two dependant children, aged 10 and 12 wishes to claim the State Bereavement Support Payment.

(a) Outline the conditions that must be satisfied for Carol to be eligible to receive the State Bereavement Support Payment. **(4)**

(b) Assuming Carol is eligible, state the amounts that she will receive, including the tax treatment. **(5)**

12. Barry, aged 62, has a capped drawdown plan valued at £80,300. The maximum income is currently £4,187 per pension year. Barry has not taken any income from the plan in the current pension year. The contract allows additional funds to be designated to the existing plan. In addition, Barry has an uncrystallised personal pension plan (PPP) valued at £126,000.

Barry's only income in the tax year 2018/2019 is a scheme pension of £18,000 gross. He would like to take an additional net payment of £24,000 from his pension funds via phased capped drawdown. In doing so he would like to crystallise as little of his PPP as possible.

Calculate, **showing all your workings**, the amount of funds in Barry's PPP that must be crystallised to provide the net payment he requires. *The GAD basis amount is £47 per £1,000.* **(8)**

13. The Financial Conduct Authority (FCA) require firms to inform consumers wishing to purchase an annuity how much they could gain from shopping around and switching provider.

Outline the information prompts contained in the FCA's Conduct of Business Sourcebook that firms must provide to consumers prior to annuity purchase. **(10)**

14. Mark, aged 64, who has recently retired has relevant UK earnings of £30,000 for the tax year 2018/2019. He is about to receive a small inheritance of £25,000 which he wishes to invest. He does not anticipate requiring access to this capital for at least ten years.

Outline the factors Mark should consider when deciding whether to place this inheritance into a personal pension plan or an ISA. **(12)**

15. Arthur, aged 64, is married to Susan, aged 56. He plans to retire when he reaches age 65. Arthur is a deferred member of a defined benefit pension scheme and wishes to transfer these benefits into a personal pension plan (PPP) in order to access them flexibly. The cash equivalent transfer value of these benefits is £190,000.

(a) Explain, giving your reasons, the steps that Arthur must take before the scheme will agree to transfer the funds to a PPP. **(6)**

(b) Assuming the transfer proceeds, outline the death benefit options available to Susan from the PPP if Arthur were to die before the age of 75, including the tax treatment. **(9)**

The tax tables can be found on pages 9 – 17

INCOME TAX

RATES OF TAX	2017/2018	2018/2019
Starting rate for savings*	0%	0%
Basic rate	20%	20%
Higher rate	40%	40%

**For trading businesses and companies (minimum 5% employee or director shareholding) held for at least one year.*

INHERITANCE TAX

RATES OF TAX ON TRANSFERS	2017/2018	2018/2019
Transfers made on death after 5 April 2015		
- Up to £325,000	Nil	Nil
- Excess over £325,000	40%	40%
Transfers made after 5 April 2015		
- Lifetime transfers to and from certain trusts	20%	20%

A lower rate of 36% applies where at least 10% of deceased's net estate is left to a registered charity.

MAIN EXEMPTIONS

Transfers to		
- UK-domiciled spouse/civil partner	No limit	No limit
- non-UK-domiciled spouse/civil partner (from UK-domiciled spouse)	£325,000	£325,000
- main residence nil rate band*	£100,000	£125,000
- UK-registered charities	No limit	No limit

**Available for estates up to £2,000,000 and then tapered at the rate of £1 for every £2 in excess until fully extinguished*

Lifetime transfers		
- Annual exemption per donor	£3,000	£3,000
- Small gifts exemption	£250	£250
Wedding/civil partnership gifts by		
- parent	£5,000	£5,000
- grandparent/bride and/or groom	£2,500	£2,500
- other person	£1,000	£1,000

100% relief: businesses, unlisted/AIM companies, certain farmland/building
50% relief: certain other business assets

Reduced tax charge on gifts within 7 years of death:

- Years before death	0-3	3-4	4-5	5-6	6-7
- Inheritance Tax payable	100%	80%	60%	40%	20%

Quick succession relief:

- Years since IHT paid	0-1	1-2	2-3	3-4	4-5
- Inheritance Tax relief	100%	80%	60%	40%	20%

CAR BENEFIT FOR EMPLOYEES

The charge for company car benefits is based on the carbon dioxide (CO_2) emissions. There is no reduction for high business mileage users.

For 2018/2019:

- The percentage charge is 13% of the car's list price for CO_2 emissions of 50g/km or less.
- For cars with CO_2 emissions of 51g/km to 75g/km the percentage is 16%.
- For cars with CO_2 emissions of 76g/km to 94g/km the percentage is 19%.
- Cars with CO_2 emissions of 95g/km have a percentage charge of 20% and thereafter the charge increases by 1% for every complete 5g/km to a maximum of 37% (emissions of 190g/km and above).

There is an additional 4% supplement for diesel cars not meeting Euro IV emission standards. However, the maximum charge remains 37% of the car's list price.

Car fuel The benefit is calculated as the CO_2 emissions % relevant to the car and that % applied to a set figure (£23,400 for 2018/2019) e.g. car emission 90g/km = 19% on car benefit scale. 19% of £23,400 = £4,446.

1. **Accessories** are, in most cases, included in the list price on which the benefit is calculated.
2. **List price** is reduced for capital contributions made by the employee up to £5,000.
3. **Car benefit** is reduced by the amount of employee's contributions towards running costs.
4. **Fuel scale** is reduced only if the employee makes good **all** the fuel used for private journeys.
5. **All car and fuel benefits** are subject to employers National Insurance contribution's (Class 1A) of 13.8%.

PRIVATE VEHICLES USED FOR WORK

	2017/2018 Rates	2018/2019 Rates

CORPORATION TAX

	2017/2018	2018/2019
Standard rate	19%	19%

VALUE ADDED TAX

	2017/2018	2018/2019
Standard rate	20%	20%
Annual registration threshold	£85,000	£85,000
Deregistration threshold	£83,000	£83,000

STAMP DUTY LAND TAX

	Residential
Value up to £125,000	0%
£125,001 - £250,000	2%
£250,001 and £925,000	5%
£925,001 and £1,500,000	10%
£1,500,001 and over	12%

Stamp Duty Land Tax (SDLT) is payable in England and Northern Ireland only. Land Transaction Tax (LTT) is payable in Wales and Land and Buildings Transaction Tax (LBTT) is payable in Scotland. The rates for LTT and LBTT are different to the rates shown above.

Additional SDLT of 3% may apply to the purchase of additional residential properties purchased for £40,000 or greater.

SDLT is charged at 15% on interests in residential dwellings costing more than £500,000 purchased by certain corporate bodies or non-natural persons.

First-time buyers benefit from SDLT relief on purchases up to £500,000 when purchasing their main residence. On purchases up to £300,000, no SDLT is payable. On purchases between £300,000 and £500,000, a flat rate of 5% is charged on the balance above £300,000.
