Unit AF5 – Financial planning process

Instructions to candidates

Read the instructions below before answering any questions

- Three hours are allowed for this paper which carries a total of 160 marks.
- You are strongly advised to attempt all tasks to gain maximum possible marks. The number of
 marks allocated to each task is given next to the task and you should spend your time in
 accordance with that allocation.
- In this examination you should use the fresh copy of the fact-find provided after the tax tables. You are not allowed to bring into the examination the pre-released copy of the factfind.
- Client objectives are provided next and you should read them carefully before attempting the tasks.
- Read carefully all tasks and information provided before starting to answer. Your answer will be marked strictly in accordance with the task set.
- It is important to show all steps in a calculation, even if you have used a calculator.
- Tax tables are provided at the right-hand side of the interface.
- The fact-find is also included at the end of the tax tables on the right-hand side of the interface.

Subject to providing sufficient detail you are advised to be as brief and concise as possible, using note format and short sentences.

CLIENTS' FINANCIAL OBJECTIVES

You have now been able to determine from the information in the fact-find that your clients have the following financial objectives:

Immediate objectives

- To review the tax-efficiency and suitability of Tim and Kathy's current pensions and investments.
- To establish a suitable investment strategy for Kathy's compensation payment.
- To ensure they have sufficient income throughout retirement.

Longer-term objectives

- To mitigate any potential Inheritance Tax liability.
- To provide financial security for the survivor on first death.
- To set up a regular savings strategy to provide funds for their grandchildren.

Attempt ALL tasks

Time: 3 hours

1. (a) Identify the additional information you would require to enable you to establish if Tim and Kathy's current savings, pensions and investments are suitable to meet their needs now they are retired. (13)(b) Describe, in detail, the process an adviser would follow to establish if Tim and Kathy's existing pensions and investments are likely to be sustainable throughout their retirement. (10)(c) Identify and explain the key client-specific factors that apply to Tim and Kathy that you should consider when assessing their capacity for loss. (10)2. (a) Explain to Tim and Kathy the key issues that they should take into consideration when setting up fixed monthly withdrawals from the OEIC portfolio, instead of continuing to draw the natural dividend (10)income. (b) Explain why Kathy's compensation payment should be paid free of (4)tax. 3. Tim and Kathy are keen to identify the most suitable and sustainable sources of income in retirement. (a) Describe the benefits of using a portion of Kathy's pension plan to purchase a 5-year fixed-term annuity to provide them with an income to cover their essential expenditure. (10)(b) (i) Recommend and justify a suitable and tax-efficient strategy to enable Tim to draw a regular flexible monthly income payment from his self-invested personal pension (SIPP). (7) (ii) Explain why your recommended strategy in part (b)(i) above would benefit both Kathy and their children, on Tim's death. (6) Candidates will be rewarded for supporting their recommendations relevant evidence and demonstrating how their recommendations work holistically to meet their client's objectives.

QUESTIONS CONTINUE OVER THE PAGE

(10)

(8)

- **4.** Tim is considering the investment strategy within his existing self-invested personal pension (SIPP).
 - (a) Explain to Tim why a range of Exchange Traded Funds may be a suitable investment for his SIPP.
 - (b) Explain to Tim the key reasons why the issue of liquidity should be considered when reviewing the investments held within his SIPP portfolio.
- **5.** (a) Explain in detail to Tim and Kathy the benefits of continuing to make personal pension contributions now they are retired. (10)
 - (b) Recommend and justify the actions that Tim and Kathy can take to improve the tax-efficiency of their current savings and investments. (8)

Candidates will be rewarded for supporting their recommendations with relevant evidence and demonstrating how their recommendations work holistically to meet their client's objectives.

- **6.** Tim and Kathy are concerned about the potential Inheritance Tax liability on their estates on second death.
 - (a) Explain in detail to Tim and Kathy why setting up a whole of life policy with a reviewable premium may be a suitable option to assist them in their Inheritance Tax planning objective. (11)
 - (b) Recommend and justify a suitable Trust arrangement to enable Tim and Kathy to begin to mitigate any future Inheritance Tax liability, whilst retaining full and immediate access to their capital. (14)

Candidates will be rewarded for supporting their recommendations with relevant evidence and demonstrating how their recommendations work holistically to meet their client's objectives.

- 7. Tim and Kathy are planning to set up regular savings plans for their grandchildren.(a) Identify the key benefits of making regular savings into a pension plan for their grandchildren, rather than into a Junior ISA. (8)
 - (b) State the reasons why a personal pension plan may be more suitable for this purpose than a Stakeholder pension plan. (5)
 - (c) Identify the key reasons why a global equity-based investment strategy might be appropriate for this objective. (8)
- 8. Explain to Tim and Kathy why they should review their investment portfolio more than once a year. (8)

The tax tables can be found on pages 9-17

CAR BENEFIT FOR EMPLOYEES

The charge for company car benefits is based on the carbon dioxide (CO₂) emissions. There is no reduction for high business mileage users.

For 2019/2020:

- The percentage charge is 16% of the car's list price for CO₂ emissions of 50g/km or less.
- For cars with CO₂ emissions of 51g/km to 75g/km the percentage is 19%.
- For cars with CO₂ emissions of 76g/km to 94g/km the percentage is 22%.
- Cars with CO₂ emissions of 95g/km have a percentage charge of 23% and thereafter the charge increases by 1% for every complete 5g/km to a maximum of 37% (emissions of 165g/km and above).

There is an additional 4% supplement for diesel cars not meeting Euro 6 emission standards. However, the maximum charge remains 37% of the car's list price.

Car fuel The benefit is calculated as the CO_2 emissions % relevant to the car and that % applied to a set figure (£24,100 for 2019/2020) e.g. car emission 90g/km = 22% on car benefit scale. 22% of £24,100 = £5,302.

- 1. Accessories are, in most cases, included in the list price on which the benefit is calculated.
- 2. List price is reduced for capital contributions made by the employee up to £5,000.
- **3. Car benefit** is reduced by the amount of employee's contributions towards running costs.
- **4. Fuel scale** is reduced only if the employee makes good **all** the fuel used for private journeys.
- **5. All car and fuel benefits** are subject to employers National Insurance contribution's (Class 1A) of 13.8%.

Stamp Duty Land Tax (SDLT) is payable in England and Northern Ireland only. Land Transaction Tax (LTT) is payable in Wales and Land and Buildings Transaction Tax (LBTT) is payable in Scotland. The rates for LTT and LBTT are different to the rates shown above.

Additional SDLT of 3% may apply to the purchase of additional residential properties purchased for £40,000 or greater.

SDLT is charged at 15% on interests in residential dwellings costing more than £500,000 purchased by certain corporate bodies or non-natural persons.

First-time buyers benefit from SDLT relief on purchases up to £500,000 when purchasing their main residence. On purchases up to £300,000, no SDLT is payable. On purchases between £300,000 and £500,000, a flat rate of 5% is charged on the balance above £300,000.
